MEMO • FROM THE ARCHIVE

One intelligence built the world. Two will build the next.

FOR INTERNAL REVIEW

Every Business Is Different. The Principles of Growth Are Not.

◆ MASTER FILE • THE 8 PRINCIPLES

STEP 01

Vision

Define where the business is going.

STEP 02

Business Understanding

Understand the business before improving it.

STEP 03

Market Understanding

Understand the customer before creating the message.

STEP 04

Commercial Architecture

Build the commercial engine before scaling it.

STEP 05

People & Leadership

Create ownership, not dependency.

STEP 06

Execution

Turn strategy into consistent execution.

STEP 07

Measurement

Measure decisions, not assumptions.

STEP 08

Continuous Improvement

Learn faster than the market evolves.

*First build a system that works. **Then build a business that scales.***

Building a Commercial Function From Zero

XTIX · FINTECH SAAS · EARLY-STAGE STARTUP

XTIX · INTAKE

01 ◆ THE SITUATION

Strong vision. Strong product. **Zero commercial infrastructure.**

FIELD REPORT · BEFORE · COMMERCIAL REALITY AT INTAKE

07 GAPS

- ⊖ No CRM
- ⊖ No Business Development function
- ⊖ No sales methodology
- ⊖ No outbound process
- ⊖ No pipeline management
- ⊖ No KPI framework
- ⊖ No reporting structure

02 ◆ MISSION OBJECTIVE

Build a **commercial operating system** for predictable growth — Israel first, then global.

03 ◆ MY APPROACH

Understanding before outbound:

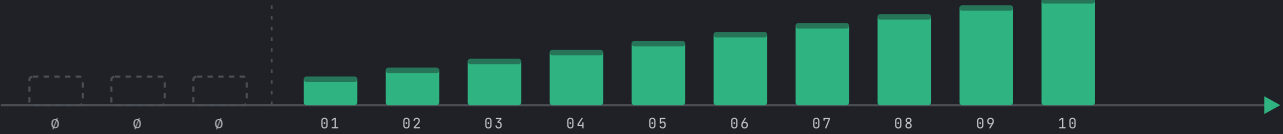

- Business & product analysis
- Competitive analysis
- Customer segmentation
- Market research
- ICP definition
- Commercial positioning

Only then did execution begin.

04 ◆ WHAT I BUILT · AFTER

- ✓ Commercial Strategy
- ✓ Business Development Process
- ✓ ICP Framework
- ✓ KPI Framework
- ✓ Reporting Dashboards
- ✓ HubSpot CRM Infrastructure
- ✓ Sales Pipeline
- ✓ Outbound Sequences
- ✓ Forecasting Structure
- ✓ AI-Powered Outbound Engine

B ◆ OPERATIONS

- ✓ Built the company's commercial reporting structure
- ✓ Implemented forecasting methodology
- ✓ Designed KPI framework
- ✓ Established pipeline management
- ✓ Standardized outbound methodology
- ✓ Supported international commercial expansion

C ◆ TECHNOLOGY

Built an in-house AI commercial intelligence platform.

PURPOSE: BETTER COMMERCIAL DECISIONS · GREATER EXECUTION CAPACITY.

D ◆ REFLECTION — IF I WERE REBUILDING XTIX TODAY

- Differentiate the product earlier against competitors
- Accelerate enterprise positioning
- Invest in strategic partnerships sooner
- Expand the AI platform even earlier
- Build the Israeli operation in parallel with global activity

Commercial growth doesn't begin when the first campaign is launched. *It begins when the commercial system becomes repeatable.*

Building Leaders, Not Just Sales Teams

OASIS • CEO • CONSTRUCTION & SMART BUILDING SOLUTIONS

Oasis • COMMAND

01 ◆ THE SITUATION

The mandate as CEO wasn't more revenue — it was a **profitable, scalable commercial organization**.

02 ◆ CEO RESPONSIBILITIES

- P&L
- Hiring
- Profitability
- Strategic Planning
- Pricing Strategy
- Commercial Operations
- Cross-Functional Leadership
- Forecasting & KPIs

03 ◆ COMMERCIAL SYSTEM BUILT

- ✓ Recruited & onboarded the entire sales team
- ✓ Built the profitability-based pricing model from scratch
- ✓ Designed the commercial process
- ✓ Implemented company-wide KPI framework
- ✓ Created sales playbooks & onboarding
- ✓ Established weekly business reviews
- ✓ Built forecasting & commercial reporting
- ✓ Created cross-functional collaboration

B ◆ COMMERCIAL LEADERSHIP

- ✓ Recruited an entire sales team
- ✓ Led a team of 5–6 sales professionals
- ✓ Conducted weekly coaching sessions
- ✓ Established KPI-driven management
- ✓ Built onboarding documentation
- ✓ Standardized commercial processes

C ◆ CROSS-FUNCTIONAL LEADERSHIP

D ◆ EXECUTIVE REFLECTION

The biggest lesson wasn't selling — it was **leadership**. The more I managed everything myself, the less the organization scaled.

*Organizations don't scale because leaders work harder. **They scale because leaders create clarity, ownership and trust.***

Aligning Commercial Execution Across Teams

EVENTER • SAAS • EVENT MANAGEMENT PLATFORM

Eventer • SYNC

01 ◆ THE SITUATION

Here, a commercial operation **already existed**. The job: sharpen execution, connect departments, find new growth.

02 ◆ MY ROLE

Connecting business strategy with day-to-day execution — across every function.

03 ◆ CROSS-FUNCTIONAL IMPACT

Customer insights became business decisions. Growth became a **shared responsibility** — not a sales target.

06 ◆ WHAT I LEARNED

Leadership doesn't require authority — **influence, collaboration and better decisions** move organizations.

04 ◆ ORGANIZATIONAL CONVERGENCE

05 ◆ KEY CONTRIBUTIONS

- ✓ Managed & coached Business Development team members
- ✓ Participated in recruiting commercial talent
- ✓ Improved commercial processes
- ✓ Introduced new business initiatives
- ✓ Worked closely with Product, Marketing, Finance & R&D
- ✓ Brought customer feedback directly into product discussions
- ✓ Helped improve commercial alignment across the organization

*Commercial growth accelerates when every department understands the customer — **not only Sales.***

Building a Business From Vision

MEDCOIN TEKNOLOJİ • CRYPTO FINTECH • FOUNDER

Medcoin ▸ ORIGIN

01 ◆ THE VISION

A **compliant, scalable crypto-ATM network** — accessible digital finance for Europe.

02 ◆ THE CHALLENGE

From zero, **every decision was mine** — model, partnerships, compliance, operations, commercialization.

03 ◆ WHAT WE BUILT

- ☒ Founded the company from scratch
- ☒ Defined the business model
- ☒ Built the commercial strategy
- ☒ Established strategic partnerships
- ☒ Raised external investment
- ☒ Deployed cryptocurrency ATMs across Europe
- ☒ Built operational & regulatory processes
- ☒ Managed financial-service providers & international vendors
- ☒ Designed the customer journey & user experience

05 ◆ THE ORIGIN LINE

06 ◆ WHAT I LEARNED

Every commercial decision affects operations. Every operational decision affects profitability. Every strategic decision affects survival.
That's the reality of building a company.

04 ◆ BUSINESS OUTCOMES

MARKETS	Europe
BUSINESS MODEL	Crypto ATM network
INVESTMENT	External investment raised
REVENUE	Hundreds of thousands
INFRASTRUCTURE	Operational ATM network deployed
TEAM	Founder-led operations

WHY IT ENDED
Operations concluded following geopolitical changes affecting business activity in Turkey.

Founders don't manage functions. *They align the entire business around one vision.*

Building People. Building Systems. Building Accountability.

HOW I LEAD • PRINCIPLES & TOOLKIT

Leadership • DOCTRINE

Great leaders build people who no longer depend on them.

A ◆ LEADERSHIP PRINCIPLES

01 Build Trust Before Performance
People perform better when expectations are clear and trust is earned.

02 Coach Before You Judge
Every performance issue deserves investigation first — understand the process, review the data, listen first, coach second, decide last.

03 Create Ownership
People shouldn't execute tasks. They should own outcomes.

04 Decisions Based on Facts
KPIs don't replace leadership — they improve it. Every coaching session begins with evidence, not assumptions.

05 Great Managers Solve Today's Problems. Great Leaders Build Tomorrow's System.
My objective was never to close one more deal — it was to build an organization that produces consistent results without depending on one individual.

B ◆ LEADERSHIP TOOLKIT

Hiring & Recruitment	Onboarding Programs
Weekly Team Meetings	Monthly 1:1 Reviews
Quarterly Performance Reviews	KPI Design
Coaching	Sales Methodology
Performance Improvement Plans	Cross-functional Leadership

Leadership is not about creating better employees. It's about creating people who no longer depend on you.

How I use technology to improve commercial decisions.

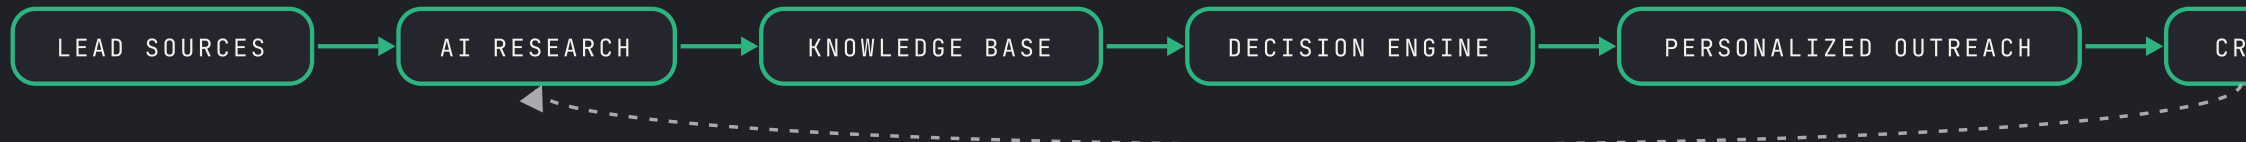

COMMERCIAL INTELLIGENCE PLATFORM · SYSTEM ARCHITECTURE

Technology · AI SYSTEM

Technology should never replace commercial thinking — it should amplify it. I don't collect tools; I build systems. This is the commercial intelligence platform I designed & implemented:

AI BUILT FOR INTERNAL COMMERCIAL OPERATIONS — NOT A SELLABLE PRODUCT

A ◆ COMMERCIAL INTELLIGENCE PLATFORM — SYSTEM ARCHITECTURE

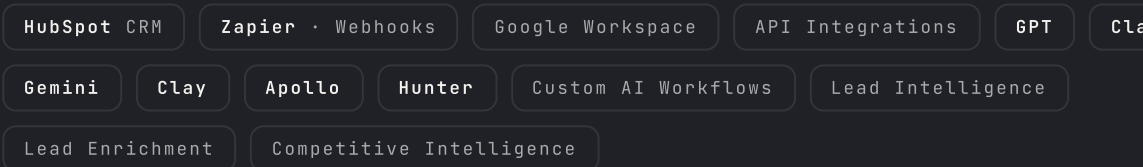

LEARNING FEEDBACK — EVERY INTERACTION IMPROVES THE SYSTEM

B ◆ WHAT THE SYSTEM DOES

- ✓ Researching prospects
- ✓ Enriching leads
- ✓ Personalizing outreach
- ✓ Automating commercial workflows
- ✓ Learning from previous interactions
- ✓ Improving commercial recommendations over time

C ◆ UNDERLYING STACK

MY PHILOSOPHY: TECHNOLOGY SHOULD AUTOMATE EXECUTION. PEOPLE SHOULD MAKE DECISIONS.

AI doesn't replace commercial leaders. It lets them think faster, learn faster and execute at scale.

The Builder's Principles

TEN PRINCIPLES • ONE OPERATING SYSTEM

The Builder ▸ END OF FILE

A ◆ THE BUILDER'S PRINCIPLES

- 01

Understand before you build.
- 02

Vision creates direction. Execution creates momentum.
- 03

Commercial growth is a business problem — not a sales problem.
- 04

Build systems before you scale people.
- 05

Measure decisions — not assumptions.
- 06

Technology should improve thinking — not replace it.
- 07

Great leaders create ownership.
- 08

Commercial success belongs to every department.
- 09

Continuous learning is a competitive advantage.

*If you connect to the vision, **you'll always know where you're going.***
